PRODUCT CATALOGUE - AUTOMOTIVE

nüvi 1200

nüvi 1200T

FEATURES

- **Display:** 3.5" (8.9 cm) QVGA colour TFT, 320 x 240 pixels, anti-glare touchscreen
- **Map Data:** Preloaded Garmap Southern Africa Streetmaps NT
- **Memory:** ≈ 1.8GB
- **Bluetooth:** Not compatible
- **Garmin Live Traffic:** Compatible, requires GTM 25 traffic receiver & 1 year traffic subscription
(additional purchase required)
(nüvi 1200T supplied with a GTM 25 & 1 year traffic subscription)
- **Voice:** Navigation instructions and warnings
- **Enhanced Features:** Improved graphics, HotFix satellite prediction, Photo Navigation, Digital Elevation Model (DEM) Maps, Text-To-Speak (TTS), ecoRoute petrol-saver, microSD Card Slot
- **Infotainment:** Automatic Time Zone, Picture Viewer, Currency & Measurement Converter, World Clock, Trip Computer (odometer, timers, average & maximum speeds), Where Am I?
- **Antenna:** Integrated antenna
- **Power Source:** Rechargeable Lithium-ion battery (up to 4 hours)

BENEFITS

Twenty-five percent slimmer than other nüvi devices, you can take the ultra-thin nüvi 1200 anywhere. This GPS navigator easily fits in your pocket or purse and is convenient for navigation by car or foot with its rechargeable lithium-ion battery. View map detail, driving directions, photos and more in bright, brilliant colour. It's sunlight-readable display is easy to read from any direction.

Now drivers can experience a more enhanced navigation with the Garmin Live Traffic service feature! Receive traffic information, provided by Altech Netstar Traffic (ANT), on the nüvi 1200/T once the traffic subscription has been activated online at www.garmin.co.za/traffic. In order to receive Traffic information, the nüvi 1200T must be connected to the GTM 25 Traffic Receiver and to an external power source (e.g. plugged into a car Cigarette Lighter Adapter). The Garmin Live Traffic service is currently limited to Gauteng, however the traffic service coverage will be expanded in due course.

- **Antenna:** Integrated antenna
- **Power Source:** Rechargeable Li-ion battery (up to 4 hours)

BENEFITS

Twenty-five percent slimmer than other nüvi devices, you can take the ultra-thin nüvi 1300 or 1310 anywhere. These GPS navigators easily fit in your pocket or purse and are convenient for navigation by car or foot with their rechargeable lithium-ion battery.

Talk about worry-free driving, the nüvi 1310 integrates Bluetooth wireless technology with a built-in microphone and speaker. Just pair it with your compatible Bluetooth phone to talk hands-free via the GPS navigator and give the road your full attention. Simply dial numbers on the touchscreen keypad to make a call and to answer calls, just tap the screen and speak directly into its built-in microphone.

Now drivers can experience a more enhanced navigation with the Garmin Live Traffic service feature! Receive traffic information, provided by Altech Netstar Traffic (ANT), on the nüvi 1300 series once the traffic subscription has been activated online at www.garmin.co.za/traffic. In order to receive Traffic information, the nüvi 1300 series must be connected to the GTM 25 Traffic Receiver and to an external power source (e.g. plugged into a car Cigarette Lighter Adapter). The Garmin Live Traffic service is currently limited to Gauteng, however the traffic service coverage will be expanded in due course.

- **Antenna:** Integrated antenna
- **Power Source:** Removable, rechargeable Lithium-ion battery (up to 8 hours), (Optional batteries & charger available)

BENEFITS

With the rugged, waterproof, multi-mode nüvi 500, you can do it all. The nüvi 500 is ready for adventure both on and off the beaten path with detailed street mapping and compatibility for optional topographic and optional BlueChart marine mapping. The nüvi 500 also switches modes to navigate your active lifestyle and provides spoken turn-by-turn directions to your destination. This portable hybrid combines the advanced navigation features and large, colour display found in automotive units with the durability of an outdoor handheld. Sleek and slim, you can slip nüvi 500 into your pocket or backpack. Geocaching friendly!

ZŪMO 220 Europe

FEATURES

- **Display:** 3.5" (8.9 cm) QVGA colour TFT, 320 x 240 pixels, anti-glare touchscreen
- **Map Data:** Preloaded Garmap Southern Africa Streetmaps - NT & [Garmin City Navigator Europe NT](#)
- **Memory:** ≈ 4GB
- **Bluetooth:** [Compatible \(helmet or headset use only\)](#)
- **Garmin Live Traffic:** Compatible, requires GTM 25 traffic receiver & 1 year traffic subscription (*additional purchase required*)
- **Voice:** Navigation instructions and warnings
- **Enhanced Features:** Photo Navigation, microSD Card Slot, Waterproof (IPX7), Auto time zone
- **Infotainment:** Picture Viewer, Currency & Measurement Converter, Trip Computer (odometer, timers, average & maximum speeds), World Clock
- **Antenna:** Integrated antenna
- **Power Source:** [Removable, rechargeable Li-ion battery \(up to 8 hours\),](#)
[\(Optional batteries & charger available\)](#)

BENEFITS

The zūmo 220 is easy on your wallet and designed to fit smaller bikes that do not have a lot of room. It features a 3.5" colour touchscreen that is both rugged and waterproof. A motorcycle mount with hardware and an automotive mount are included, so your zūmo is ready to navigate right out of the box. The zūmo 220 is preloaded with full coverage mapping of Europe. These fully-routable maps of Europe, with millions of kilometres of road coverage and points of interest, will allow you to travel to cities, look up hotels, restaurants, ATMs and more. Naturally, the zūmo 220 also comes preloaded with Garmap Southern Africa Streetmaps NT.

Now drivers can experience a more enhanced navigation with the Garmin Live Traffic service feature! Receive traffic information, provided by Altech Netstar Traffic (ANT), on the zūmo 220 Europe once the traffic subscription has been activated online at www.garmin.co.za/traffic. In order to receive Traffic information, the zūmo 220 Europe must be connected to the GTM 25 Traffic Receiver and to an external power source (e.g. plugged into a car Cigarette Lighter Adapter). The Garmin Live Traffic service is currently limited to Gauteng, however the traffic service coverage will be expanded in due course.

zūmo 660 Europe

FEATURES

- **Display:** 4.3" (10.9 cm) WQVGA colour TFT, 480 x 272 pixels, anti-glare touchscreen
- **Map Data:** Preloaded Garmap Southern Africa Streetmaps - NT & [Garmin City Navigator Europe NT](#)
- **Memory:** ≈ 4GB
- **Bluetooth:** [Compatible](#)
- **Garmin Live Traffic:** Compatible, requires [GTM 12](#) traffic receiver & 1 year traffic subscription (*additional purchase required*)
- **Voice:** Navigation instructions and warnings
- **Enhanced Features:** A2DP stereo Bluetooth, Photo Navigation, microSD Card Slot, Waterproof (IPX7)
- **Infotainment:** MP3 Player, Picture Viewer, Audio Book Player, Currency & Measurement Converter, Trip Computer (odometer, timers, average & maximum speeds), World Clock, Audio Output Jack
- **Antenna:** Integrated antenna
- **Power Source:** [Removable, rechargeable Li-ion battery \(up to 5 hours\),](#)
[\(Optional batteries & charger available\)](#)

BENEFITS

Explore the open road and enjoy a new perspective on navigation with the zūmo 660 Europe widescreen motorcycle navigator.

Just because your bike's parked doesn't mean zūmo's work is done. The zūmo 660 Europe also doubles up as an in-car navigator. Just remove from the included motorbike mount and replace with the automotive mount, power cable and carrying case to continue the journey by car. The zūmo 660 Europe is preloaded with full coverage mapping of Europe. These fully-routable maps of Europe, with millions of kilometres of road coverage and points of interest, will allow you to travel to cities, look up hotels, restaurants, ATMs and more. Naturally, the zūmo 660 Europe also comes preloaded with Garmap Southern Africa Streetmaps NT.

Now drivers can experience a more enhanced navigation with the Garmin Live Traffic service feature! Receive traffic information, provided by Altech Netstar Traffic (ANT), on the zūmo 660 Europe once the traffic subscription has been activated online at www.garmin.co.za/traffic. In order to receive Traffic information, the zūmo 660 Europe must be connected to the GTM 12 Traffic Receiver and also have an external power source (e.g. plugged into a car Cigarette Lighter Adapter). The Garmin Live Traffic service is currently limited to Gauteng, however the traffic service coverage will be expanded in due course.
